

Canada Chrysler announces Pacifica to be discontinued

Nov-2-2007

Chrysler Canada has announced that the Chrysler Pacifica will be discontinued, with the last day of production scheduled for November 26, 2007. Should you have any orders, please submit them immediately. Chrysler Canada will try to acquire final allocation for these vehicles.

Chrysler Canada apologizes for the late notification; however, the decision to discontinue the Chrysler Pacifica was concluded late Wednesday with official notification late Thursday.

If the Pacifica is part of your vehicle selector, contact your PHH Account Team to discuss alternatives.
