

Plan Your Selector, Compare Operating Costs sections of PHH InterActive® have been updated with 2008 model year information

Jul-6-2007

The PHH vehicle recommendations and operating cost projections for the 2008 model year are now available. The following sections of PHH InterActive have been updated with 2008-model-year information:

- Plan Your Selector
- Compare Operating Costs

As you are completing your model year 2008 selector process, consider reviewing the Fleet Best Practices section of PHH InterActive as well. This section contains general best practice information broken down by major topic for each phase of the vehicle life cycle. This is a great place to start if you are new to fleet management or just want a quick refresher on best practices.
