

Subaru Canada announces retail incentives

Mar-7-2008

Subaru Canada has released its retail incentives for vehicles for March 2008. Please note that Subaru's retail incentives on current model year products have not been cash incentives and, therefore, have had minimal impact on its fleet programs. Subaru's fleet policy has been to offer the better of the Fleet or Retail Incentive programs.

Listed below are the current retail programs being offered on vehicles **reported sold and delivered from March 4, 2008 through April 1, 2008**. These incentives have been enhanced to include Forester. Please note that as these are retail incentives; they are delivery based and will not be protected on factory orders or vehicles delivered outside of these dates. **These incentives are in lieu of any and all Fleet or Retail programs.** Subaru's Fleet Incentives will remain in effect through the balance of the model year.
