

Pay At the Pump Supplier Update – Province of British Columbia

Apr-9-2008

The following is an update of the fuel suppliers that are providing pay-at-the-pump access at British Columbia locations for PHH cardholders. Please note that due to numerous programming issues, **Shell Canada** cannot confirm an activation date for their pumps to accept PHH, nor any other third party cards. A communication will be distributed once their activation date is confirmed. In the meantime, drivers must pre-pay for all Shell transactions.

Where is it available? *Updated April 9, 2008*

Supplier	Active Date	Daily Transaction Limit*	\$ Limit Per Transaction*
Chevron	Active	No Limit	\$100
Esso	Active	3	\$100
Husky/Mohawk	Active	No Limit	\$75
PetroCanada	Active	2	\$100

*Note: pumps will shut down if above limits are reached and the driver will have to go into the kiosk

The limits above are in place for all cards types - fleet and credit (i.e., Visa and MasterCard). The fuel companies have put them in place for the security of all their customers and they are not negotiable. The lone exception is Chevron where our card limit will be \$100 and for credit cards it will be \$200.

Please note that these limits only apply to pay-at-the-pump transactions. The restrictions are not in place if the drivers visit the kiosk first and purchase fuel using the pre-payment method.
