

ASSET MANAGEMENT

Licensing & Registration Renewal Services from PHH Arval

Fleet management is tough enough without the frustration of keeping vehicles properly registered. PHH can relieve this administrative burden, improve your drivers' productivity, and keep your vehicles legal.

Renew vehicle registrations the easy way.

PHH's Licensing and Registration Renewal programs provide a complete, streamlined solution to administer your fleet's registration renewal needs throughout North America. Our in-house experts manage the entire process for you, including proactive communication to your drivers.

- **Automated registration renewal processes to keep your vehicles legal.** PHH takes full responsibility for the time-consuming, labor-intensive process of renewing vehicle registrations. Our system automatically tracks registration expiration information for each vehicle in the program.
- **Increased employee productivity.** PHH will relieve the burden and time of your drivers standing in line at the department of motor vehicles, keeping them focused on their jobs – not their vehicles. Registration Renewal eliminates driver out-of-pocket expenses and the associated costs of processing them for reimbursement.
- **Easy access to registration status and online information.** PHH InterActive® includes detailed renewal status and information at the unit level, including renewals by specific date, vehicles missing renewal expiration date, and more. Registration renewal status is available in real time at the unit level. Reports are downloadable in Excel (.XLS) format and can be scheduled to run automatically and sent to you via email
- **Lower operating costs through compliance.** Our proactive processes help you avoid the cost of fines, penalties, or impoundment for improperly registered vehicles.
- **Extensive in-house experience.** Dedicated PHH teams with regional, state, and provincial expertise manage the renewal process from start to finish, including all driver notification and follow-up communications, and ensure compliance with all renewal process requirements.
- **Consultative expertise to help reduce administrative costs.** Your PHH Account Team evaluates your current administrative processes, identifies and calculates expenses, and works with you to achieve time and cost savings. Your team also provides consultative recommendations to help you decide whether it makes sense to move your vehicles across jurisdictions when drivers are transferred.
- **Insurance coverage compliance.** Your Licensing and Insurance team in Canada provides provincial fleet numbers and premium reviews to ensure compliance with insurance requirements in the Provincial Governments of British Columbia, Saskatchewan, Manitoba, and Quebec.

PHH's in-house expertise and efficient systems protect your assets and keep your vehicles legal.*

Monitoring taxes and fees in government jurisdictions in the United States, Canada, and Puerto Rico is a complex, but essential, task. PHH has the administrative ability to stay on top of every situation to ensure your vehicles comply with state requirements.
